OVERVIEW

This Fall 2022, the European Society for Medical Oncology (ESMO) and Total Health Conferencing partner to expand access to oncology education in the U.S. with three hybrid medical education programs. With the support of ESMO, Total Health Conferencing will host an educational experience in **Philadelphia, PA on Saturday and Sunday, October 22-23, 2022.**

The free conference will cover highlights from the ESMO Congress 2022, equipping healthcare providers with the latest strategies to improve clinical practice and treatment outcomes in cancer care. The relationship will allow for a broader, more community accessible, and rapid review style dissemination of the clinical updates and expertise.

Join the program in-person in Philadelphia, PA or virtually. Registration is free for all healthcare providers.

LEARNING OBJECTIVES

- Examine scientific advances that further enhance knowledge of cancer biology and pathogenesis
- Review recent and emerging data from key studies in clinical cancer research
- Evaluate the role of new diagnostic techniques and therapeutic approaches as applied to the care and management of people with cancer
- Implement clinical and scientific strategies designed to improve the quality of cancer care, as appropriate
- Effectively communicate with colleagues and with patients regarding advances in clinical oncology science
- Identify and utilize tools for cancer risk assessment and risk reduction based on the best available evidence

WHAT TO EXPECT

- Free registration for all healthcare providers
- Expert sessions that present the most clinically relevant data, research, and clinical strategies
- Enduring video content for watching at your leisure
- Networking with peers, colleagues, and medical professionals
- Access to the latest industry information and resources

For In-Person Only:

- Exclusive Networking Reception
- Catered Meals throughout the Weekend
- Great Prizes when you participate
- Health and safety guidelines and regulations
